

R112805 Tomy MX-305 High Speed Refrigerated Micro Centrifuge

Product ID # R112805

This Tomy MX-305 High Speed Refrigerated Micro Centrifuge appears to be in fair cosmetic condition with signs of prior use or wear. It powered on as shown in the photos. It spun, changed speeds, worked on timer all when prompted. It did come up with several errors, and I could not get it to cool down. However, I lack the knowledge or equipment to test it further, so due to little testing, it is being sold as-is for parts or repair. Please see photos for more detail.

Item comes exactly as shown in the photos above. No other accessories are included. If you do not see it in the photos, it is not included.

Unpacked dims are 14" x 18"x 34"

Please ask questions or indicate concerns prior to bidding. By placing a bid, you agree to all stated terms. All auctions are sold as advertised, as is and without warranty, unless otherwise stated in the item description. No software, power cords, or other accessories are included unless stated above. See additional terms of the auction below.
